First, I would like to extend my deepest condolences to those who lost their lives and express my heartfelt sympathy to all those affected by the Noto Peninsula Earthquake.

In delivering a notice of the 134th Ordinary General Meeting of Shareholders, I would like to express my sincere gratitude to shareholders for their loyal patronage.

In 2023, we started returning to a sense of normalcy in our daily lives, having observed the slowdown in demand that had spiked due to constrained supply chains, the rise in logistics expenses, and fiscal measures taken by each government, which had lasted since 2020.

The business performance of the fiscal year ended December 31, 2023 achieved historically high records for both revenue and operating profit due to reasons such as product price increases and the effect of the depreciated yen. However, we are aware that we need to further strengthen our business structure. To achieve the goals of the Mid-Term Business Plan 2025, we will continue

promoting growth drivers, reviewing our product and business portfolio and reinforcing the management base and operation capabilities.

As for **the medium to long-term measures**, we will promote the realization of new solutions, including the development of the “smart agriculture” business model, the commercialization of “resource recovery solutions” and the increase in the orders for “ICT solutions for water and the environment,” as well as our carbon neutral initiatives.

For the promotion of these initiatives, it is necessary to enhance human resources.

By giving priority to engagement and Diversity, Equity and Inclusion (DE&I), we will transform our corporate culture by giving importance to dialogue, which brings out the value of our talent, and enhance the opportunities that allow individuals to grow.

Lastly, I value the following three:

- (1) To win against the competition with the power of our products and brand that leverage our strengths
- (2) To create the future through selection, concentration and new challenges
- (3) To connect our corporate philosophy, Long-Term Vision “GMB2030” and each employee’s thoughts and hopes

Each employee throughout the world serves customers with the mindset of “On Your Side” for them. All Kubota Group entities gather and form “One Kubota.” Thus, in 2024, each employee with their thoughts and hopes will continue overcoming various challenges and striving to achieve our Long-Term Vision “GMB2030.”

We sincerely ask for the continued support of our shareholders.

Yuichi Kitao
President and Representative Director
