BACKHOE

Protected Hoses

All of the hoses are routed through the durable backhoe arm for a streamlined design and enhanced protection.

Incredible Digging Power

The BH65 offers an impressive digging depth of 6.7 feet and boasts more than 2,500 pounds of bucket breakout force.

Reversible Seat

The B2320/B2620/B2920 tractors feature a new reversible seat, which is standard-equipped with the BH65 backhoe. This convenient seat swivels from front to back and saves space, improves comfort, and makes backhoe operation more efficient.

Mechanical Thumb (Optional)

Kubota's BH65 is also available with an optional 6-position thumb, for expanded capabilities and efficient material handling.

4-point Quick-attach System

With its pin-and-hook type quick-attach system, the backhoe can be attached in minutes—without tools. And, with four connecting points for structural integrity, tractor balance is improved.

BACKHOE

Large Operator Platform

Thanks to the new reversible seat and a compact lever link cover, the tractor offers a spacious platform area for comfortable backhoe operation. And, since the backhoe connects closer to the tractor, overall balance is enhanced.
