L3700

FEATURES

A More Powerful Engine to Take On Your Toughest Projects.

More power means better performance. To make your job easier, we've given our world-renowned E-TVCS diesel engine an extra 1HP. The L3700SU gear-drive model puts out an impressive 30 PTO horsepower (HST model: 22.4 PTO horsepower). This clean-running engine is compliant with the EPA's Interim Tier 4 emissions standards.

HYDROSTATIC TRANSMISSION (HST MODEL)

3-range Shift/Cruise Control For Optimal Speed Selection.

An in-line shifting pattern enables easy range shifting from low to medium to high. The shift is also conveniently on the left side of the operator's seat. For an easy way to keep your working speed constant, simply set the infinite, mechanical cruise control lever on either the L2800 or L3400 4WD HST models to your desired speed—and go. Changing your speed is as simple as operating a single lever.

Loader Package

Kubota has packaged the new L3700SU tractor with a performance matched Quick Attach/Detach Loader adding more overall customer value.

Live Continuous-running PTO (Transmission-driven PTO on L2800 Gear-drive Model)

The L3700SU includes a live, continuous-running rear PTO for easier operation. It also features an over-running clutch on the PTO shaft to protect the transmission. Finally, a stationary PTO has been included to enable the use of various implements, such as pumps.

Full-open Hood and Slide-out Grill

Whether simple maintenance or a more involved repair, a one-piece, full-opening hood exposes most engine components, making it easier to do either. Removing the front grill is fast, too. Simply slide it out.

Large Fuel Tank

An ample 9-gallon fuel tank lets you fill up with more fuel so you can operate longer.

L3700

FEATURES

Spacious Operator's Deck

To provide maximum comfort, the L3700SU features a spacious operator platform. Its semi-flat design also makes getting on and off the tractor easier.

Bevel Gear Front Axle (4WD model)

This superior feature delivers an extremely tight turning radius with full power transfer to the wheels at every steering angle.

Smooth Power Steering

To reduce fatigue, both 2-wheel drive and 4-wheel drive models come equipped with smooth, easy-turn, integral power steering.

Choice Of Tires

Tires designed especially for specific jobs enable the L3700SU to perform even better. Select from AG, Industrial, and Turf.
