BACKHOE

Wide Legroom

Our full-flat deck gives you ample legroom. This makes operation comfortable and mounting and dismounting the tractor easy.

Optional Hydraulic and Mechanical Thumbs

Thumbs empower backhoes with great versatility to handle objects such as logs and landscape rocks. Both the BH77 and BH92 backhoes come with preinstalled thumb brackets to accommodate the optional 6-position mechanical thumb. In addition, the BH92 also offers an optional hydraulic thumb.

Quick Attach/Detach

The less time you spend between jobs, the more productive you become. To this end, the BH77 and BH92 are equipped with a quick attach/detach mounting system. This makes attaching or detaching the backhoe a snap. So you can quickly move on to your next job.

Quick Coupler

With our optional quick coupler, changing buckets is a snap. This is the option for those who do a lot of bucket work and frequently change bucket types.

Cast Steel

Mainframe provides a strong and durable backhoe. No welds to crack or break.

BACKHOE

Curved Boom

The curved boom provides enhanced visibility, less repositioning with more modern styling.

Protected Hoses

The hydraulic hoses are neatly tucked inside the backhoe to protect from wear and tear.
