

OSS Obligation Report for CDG_BSW_CUBAS_18.01.00

16, Jan,2018, 14:41:10

----- Analysis Summary -----

Product name and Version	: CDG_BSW_CUBAS_18.01.00
Open Source Officer	: [REDACTED]
OSS Auditor	: [REDACTED]
Scan Analysis team	: [REDACTED]
Protex Projects	: CDG_BSW_CUBAS_18.01.00_delta6
Release date of report	: 16, Jan,2018, 14:41:10
Analysis Release Description	: Product version 7.7.2 KB update 15, custom codeprints modified June 01, 2017 07:29 PM

Glossary / Help

Terms

OSS	Open Source Software. In this document OSS denotes OSS software, OSS component, OSS package or OSS tool
-----	---

MetaData

Product Name with version	Name and detailed version of the product
Open Source Officer	Responsible CDG_BSW Open Source Officer
OSS Auditor	Person performing the scan and scan analysis
Scan Analysis Team	All persons that have been participated in the scan analysis
Protex Project	Names of all related Protex Projects
Release Date of Report	Date when the report has been released
Analysis Release Description	Protex tool and Knowledge Base version

Summary

Name of OSS Component	Exact name of the OSS
Component Version	Exact version of the OSS
Download Link	The link to the internet download page of the OSS. This shall be the exact link to the download page of the software, component or tool, not to an overall page of the service provider, community etc.
License Name and Version	Name and Version of the related OSS license
Modification Status	Describes how the component is used in the project. This is only filled in if the license obligations would be different for another usage scenario. Usage Scenario covers Change Scenario and Integration Type.
Integration Type	Describes how the software shall be used in the CDG_BSW proprietary source code. The main Architectural patterns for integration of an OSS component into the CDG_BSW products are (for details see description in the CDG_BSW White and Black List): <ul style="list-style-type: none"> • Lib linked dynamically • Lib linked statically • Included in source code • Call of an executable • Prerequisite dynamic library • Prerequisite separate work • Prerequisite Service • Stand-alone component
License Obligations	Obligations given by the license and to be fulfilled with each distribution of the product
Additional Information	Any Additional Information
