—Aiming for a Disaster-Resistant World

Natural disasters such as earthquakes and typhoons occur frequently not only in Japan but in regions all over the world. Preparing to prevent and reduce their impact is an urgent issue. The Kubota Group will contribute to the development of robust, sustainable societies through products, services, and people.

Prepare and Endure

Able to continue delivering water during disasters
Earthquake-resistant ductile iron pipes

Recover and Rebuild

Used for draining water during floods
Pumper vehicles (Thailand)

Used for restoring and maintaining life lines
Plastic pipes

Used for removing debris
Mini excavator

Restoration work on a water purification plant
