

List of SDGs and Targets related to the Kubota Group's Environmental Conservation Activities

| | | Tackling Climate Change | Working towards a Recycling-based Society | Conserving Water Resources | Controlling Chemical Substances | Conserving Biodiversity | Expanding Environment-friendly Products and Services |
|--------------|---|-------------------------|---|----------------------------|---------------------------------|-------------------------|--|
| SDG2 | End hunger, achieve food security and improved nutrition and promote sustainable agriculture | | | | | | |
| 2.4 | By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality | ✓ | | | | ✓ | ✓ |
| SDG6 | Ensure access to water and sanitation for all | | | | | | |
| 6.1 | By 2030, achieve universal and equitable access to safe and affordable drinking water for all | | | | | | ✓ |
| 6.2 | By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations | | | | | | ✓ |
| 6.3 | By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally | | ✓ | ✓ | ✓ | ✓ | ✓ |
| 6.4 | By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity | | | ✓ | | | ✓ |
| 6.a | By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies | | ✓ | ✓ | | | ✓ |
| SDG7 | Ensure access to affordable, reliable, sustainable and modern energy for all | | | | | | |
| 7.2 | By 2030, increase substantially the share of renewable energy in the global energy mix | ✓ | | | | | |
| 7.3 | By 2030, double the global rate of improvement in energy efficiency | ✓ | | | | | ✓ |
| 7.a | By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology | ✓ | | | | ✓ | ✓ |
| SDG9 | Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation | | | | | | |
| 9.4 | By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| 9.5 | Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending | ✓ | ✓ | ✓ | ✓ | | ✓ |
| SDG11 | Make cities and human settlements inclusive, safe, resilient and sustainable | | | | | | |
| 11.3 | By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries | | | | | ✓ | ✓ |
| 11.5 | By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations | | | | | ✓ | ✓ |
| 11.6 | By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management | | ✓ | | ✓ | | ✓ |
| 11.b | By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all | ✓ | ✓ | | | | ✓ |
| SDG12 | Ensure sustainable consumption and production patterns | | | | | | |
| 12.2 | By 2030, achieve the sustainable management and efficient use of natural resources | | ✓ | ✓ | ✓ | ✓ | ✓ |
| 12.4 | By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment | | ✓ | ✓ | ✓ | | ✓ |
| 12.5 | By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse | | ✓ | | ✓ | | ✓ |
| 12.8 | By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature | | | | | ✓ | |
| 12.a | Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production | | ✓ | ✓ | ✓ | ✓ | ✓ |
| SDG13 | Take urgent action to combat climate change and its impacts | | | | | | |
| 13.1 | Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries | ✓ | | | | ✓ | ✓ |
| 13.3 | Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning | ✓ | | | | ✓ | ✓ |
| SDG14 | Conserve and sustainably use the oceans, seas and marine resources for sustainable development | | | | | | |
| 14.1 | By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution | | | ✓ | ✓ | ✓ | ✓ |
| SDG15 | Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss | | | | | | |
| 15.1 | By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements | | | ✓ | ✓ | ✓ | ✓ |
| 15.2 | By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally | | | | | ✓ | |
| 15.4 | By 2030, ensure the conservation of mountain ecosystems, including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development | | | | | ✓ | ✓ |
| 15.9 | By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts | | | | | ✓ | ✓ |
| 15.a | Mobilize and significantly increase financial resources from all sources to conserve and sustainably use biodiversity and ecosystems | | | | | ✓ | |
