The corporate governance of Kubota Corporation (hereinafter, the “Company”) is described below.

I. Basic Policy on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Policy

The Company has designated “long-term and stable growth of corporate value” as its highest management priority. To realize this aim, the Company considers enhancement of the satisfaction of all the Company’s stakeholders and improvement of overall corporate value, while balancing economic value, social value, and corporate value, to be important. Especially, in order to achieve the long-term objectives of building “Global Major Brand Kubota” on the basis of its corporate philosophy “Kubota Global Identity,” the Company must be an enterprise that is trusted not just in Japan but also worldwide. In order to enhance the soundness, efficiency, and transparency of management, which are essential to earn trust, the Company is striving to strengthen its corporate governance.

[Reasons for Non-Compliance with the Principles of the Corporate Governance Code]

The Company implements all the principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code] updated

[Principle 1.4 Cross-Shareholdings]

- **Policy for cross-shareholdings**

The Company believes it is necessary to cooperate with various companies in every business process, such as product development, manufacturing, distribution, sales, service, and funding, to succeed in global competition and realize its sustainable growth and improvement of corporate value over the medium to long term. From this perspective, the Company maintains cross-shareholdings based on comprehensive consideration of business relationships and the business strategies.

The Company’s policy for cross-shareholdings is to examine each individual share at the Meetings of the Board of Directors every year to see whether or not the shareholding is appropriate, based on comprehensive consideration of the holding purpose, benefits and risks involved in the shareholdings and others, and decrease its shareholdings gradually in light of the market environment and other factors when it determines that maintaining them is no longer appropriate. In fiscal 2017, the Company sold ¥11.8 billion of its listed equity securities. In fiscal 2018, the Company sold ¥7.0 billion of its listed equity securities.

- **Standards for exercise of voting rights**

When the Company exercises voting rights, it does not make its decisions uniformly by criteria based on a short-term perspective but rather comprehensively considers the proposals from the perspective of whether they will contribute to sustainable growth of the issuing company and improvement of corporate value over the medium to long term, whether they could be detrimental to shareholder value, and others.

[Principle 1.7 Related Party Transactions]

Based on the Companies Act and the rules governing the Board of Directors, the Board of Directors may approve transactions that represent a conflict of interest between the Company and the Directors after receiving reports of material facts, such as the content of transactions and transaction amount (maximum amount). Furthermore, the Company reports the actual results to the Board of Directors. Transactions with major shareholders are reported to the Board of Directors as needed, and the Directors and the Audit & Supervisory Board Members review them so as not to harm the common interests of shareholders.

[Principle 2.6 Responsibilities of Corporate Pension Funds as Asset Owners]

To ensure pension payments to its employees, the Company manages plan assets through Kubota Corporate Pension Fund from the medium- to long-term perspective.

Decisions on asset management are made at the Executive Board of Kubota Corporate Pension Fund in consideration of deliberations and reports by the Asset Management Committee.

Personnel such as department heads of the accounting department and the human resources department of the Company, who have appropriate qualifications, and executive members of the labor union, as a representative of beneficiaries, have been assigned to the Asset Management Committee and the Executive Board of Kubota Corporate Pension Fund. In addition, specialist capabilities and insight are supplemented through the use of external advisers.

The Asset Management Committee monitors the entrusted asset management companies semiannually from the perspectives of investment products, their performance and others.

- Corporate philosophy

The Kubota Group (hereinafter, the “Group”) positions its corporate philosophy, the “Kubota Global Identity,” as the foundation of its corporate management. Kubota Global Identity: <http://www.kubota.com/company/c-data/identity/>

- Business strategies and business plans

Based on its corporate philosophy, the Company sets a long-term goal of building “Global Major Brand Kubota” and aims to continue to be an organization with a strong presence that is truly needed throughout the world.

Aiming to achieve this long-term goal, the Company drew up action plans in fiscal 2017 for each operating division to clarify the respective mid-term milestone goals and the road maps for achieving them. The period for these respective action plans was in principal set to five years, but for the machinery businesses which are core to the Company’s “Global Major Brand Kubota” policy, the periods were set to seven to ten years. Entering fiscal 2018, the Group is now beginning to execute these strategies and plans.

(2) Basic views and guidelines on corporate governance

(3) Policies and procedures in determining the remuneration of Directors and Audit & Supervisory Board Members

The remuneration for the Directors consists of basic remuneration, which is set by the Director’s position in the rank of corporate officers, and a variable remuneration (bonuses for Directors) which acts as an incentive linked to performance in a single fiscal year. However, the remuneration for the Outside Directors consists of basic remuneration only because of the roles they play and the need to preserve their independence.

At the Meetings of the Board of Directors, the remuneration for the Directors is determined within the range of the maximum aggregate amount of remuneration approved at the General Meeting of Shareholders after it has been deliberated on in the Compensation Advisory Committee, which is composed of Outside Directors and internal Directors (three out of five of whose members are Outside Directors and meetings are attended by the Outside Audit & Supervisory Board Members as observers), in consideration of the Company's operating results, compensation levels of other companies, and other factors.

In addition, the total amount of bonuses for Directors is decided by the General Meeting of Shareholders.

It was approved at the General Meeting of Shareholders in March 2017 to offer remuneration to the Company's Directors other than Outside Directors, for the granting of restricted shares with the objective of offering incentives to achieve sustained improvement of the corporate value of the Company and sharing that value with shareholders more.

The remuneration for Audit & Supervisory Board Members is determined after consultation among the Audit & Supervisory Board Members within the range of the maximum aggregate amount of remuneration approved at the General Meeting of Shareholders in consideration of the roles of the respective Audit & Supervisory Board Members.
